Clinical case submission – Open to All Programme Attendees

Attendees are encouraged to submit a clinical case for presentation and discussion. If you would like to submit a clinical case for discussion, please submit your presentation title to Prof. Henri Bismuth henri.bismuth@pbr.aphp.fr by 15th May 2019.

Submitters should prepare a brief PowerPoint presentation 10-15 minutes in length to introduce the clinical case, after which the floor will be open to audience discussion and possible diagnosis and/or treatment. The moderators will drive the clinical case program, giving rise to comments and leading discussions. It is our expectation that approximately 5-10 cases will be presented per session however, this may vary based on the level of audience participation and discussion.
